APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. A valve must be installed and maintained to prevent waste of water. A meter must be installed in the pipe line, near the point of diversion, so that accurate measurements of water placed to beneficial use may be obtained. This source is located within an area that has been designated by the State Engineer as coming within the meaning of the provisions of the 1939 Underground Water Act, as amended in 1943. The State has the right to regulate the use of the water herein granted at any and all times. Should the land upon which this water is appurtenant be subdivided and the water utilized by different individuals, the permittee must form an organization approved by the State Engineer for the distribution and control of such water.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second.

Actual construction work shall begin on or before March 15, 1948.

Proof of commencement of work shall be filed before April 15, 1948.

Work must be prosecuted with reasonable diligence and be completed on or before March 15, 1950.

Proof of completion of work shall be filed before April 15, 1950.

Application of water to beneficial use shall be made on or before March 15, 1951. Proof of the application of water to beneficial

use must be filed with State Engineer on or before April 15, 1951.

Filed MAR 5 1947

WITNESS MY HAND AND SEAL this 15th day

Cancelled JUL 18 1950 because of failure
of applicant to comply with the provisions of permit

of August 15, 1947
